24 January 2014

Dear Resident / Business Owner

New Farm Riverwalk replacement project
Night works

Construction on the New Farm Riverwalk replacement project is progressing, with several activities planned over the next few months. The arrival of an additional barge will allow us to accelerate the works in preparation for completion in mid-2014.

From Monday 3 February 2014, construction activities will increase to include night works between 5.30pm and 6am, Monday to Friday. Saturday work hours will remain the same from 6.30am to 5.30pm. Occasional Sunday work may be required for essential works only, including servicing works to the piling barge crane on Sunday 2 February 2014.

Night works will be undertaken at the Howard Smith Wharves site only and will involve:

- steel works on precast girders
- deliveries of machinery to site
- use of cranes and trucks
- vehicles and equipment with flashing lights and white noise reversing beepers for the safety of on-site workers
- lights on site
- intermittent noise.

Council will endeavour to complete noisier activities, such as concrete pouring for the pre-cast girders, before 8.30pm. These works will only continue past 8.30pm if it is essential to complete the activity at that time for quality and safety reasons.

Works at the Merthyr Road end of the walkway will be undertaken during the day between the hours of 6.30am and 5.30pm.

Properties in close proximity to the work site may experience some low level construction noise and increased lighting, however, Council will endeavour to keep this disturbance to a minimum where possible.

Fortnightly construction notifications advising of upcoming works are also available. If you are not already registered and would like to receive regular updates, please email riverwalk@brisbane.qld.gov.au or call the project information line on 1800 010 705.

If you have any questions about this work or would like more information, please contact our free call information line on 1800 010 705 or email riverwalk@brisbane.qld.gov.au. For information outside of business hours please call Council’s 24 hour contact centre on (07) 3403 8888.

Yours sincerely

Roger Caswell
Project Manager
